

Encoding

Rules & Regulations:

- Each team comprises of 1 or 2 members.
- Each team member will have to register separately giving his/her own details and the same team name.
- Any one of the two members can login with his/her student ID and password to start the contest only once.
- There will be two rounds in ENCODING – Prelims & Finals. Finals will be of two sub rounds.
- For the prelims there will be 30 questions and the time allotted is 20 minutes.
- For each correct answer 3 marks will be allotted & for each wrong answer 1 mark will be deducted.
- If two teams score same points then the time taken to submit the round will be the tie breaker.
- There is an option between C or JAVA or C++ for Encoding and a team can opt for either of the languages for coding in Finals.

Final Round~

- The finals will take place in 2 sub rounds.
- In round 1 there will be 6 algorithms and in 2nd round you will be given 4 algorithms.
- Attempt whichever you want, solve them, get the desired output and show it to us.
